Personal Lockout Kits

Personal Lockout Kits

Personal lockout kits come equipped with keyed-alike padlocks, allowing all the locks in a kit to be opened with a single key. This simplifies key management and ensures that employees can quickly and easily find the right key. For kits containing padlocks that are keyed different (each padlock has its own unique key), see the standard lockout kits on previous pages. Or select a personal lockout kit without padlocks, and purchase the padlocks separately.

Lockout Stations

Lockout Tagout Stations

Lockout Tagout Stations ensure that lockout devices are properly stored and always accessible when needed. They are a great place to centralize lockout activity needs by organizing the tools, padlocks and padlock keys in one location. Available in portable and wall-mounted styles, these stations are designed with the durability required for an industrial workplace, and can be locked to prevent theft and unauthorized usage.
