Brady Workstation

Simple. Efficient. Flexible.

Brady Workstation has revolutionized how you design and print signs and labels. When paired with the high-performance printing capabilities of a Brady printer, you get intuitive label set up for simple, efficient and flexible sign and label creation.

Simple

Brady Workstation offers an intuitive user interface and workflow so you're ready to get started, without in-depth training. With your Brady printer, you get real-time information about the material installed in the printer to make label set up easy.

Efficient

Each suite of apps is designed with you in mind, featuring built-in regulations, standards, pictograms, common phrases, data importation guidance, help functions and more.

Flexible

With all your design apps in one spot, switching between identification tasks becomes a breeze. And, Brady Workstation works with our complete benchtop printer offering and select portable printers.

Download your free 30-day trial

1. Download Brady Workstation at **Workstation.BradyID.com**.

2. Fill your workstation with the suites that best fit your needs.

3. Begin designing labels and printing them on your Brady printer!

Brady Workstation: Safety and Facility Identification Suite

Keep your facility safe and compliant. This suite features applications so you can easily create the custom signs, labels and pipe markers you need to add visual safety guidance to your facility.

Included apps:

Custom Designer
Complete, customized label creation and editing.

Arc Flash
Create NFPA compliant arc flash labels.

Express Signs
Create safety and facility signs in minutes with pre-defined templates and layouts.

Lean
Create common lean labels including gauge* and inventory labels.

Pipe Markers
Easily create ANSI / ASME compliant pipe markers using pre-defined templates.

Arrow Tape
Create arrow tape labels with pre-defined templates to show pipe flow direction.

Excel Import
Easily import Excel data right onto your labels.

Sequence
Create labels based on numeric and alphanumeric sequences.

Template Editor
Set elements on labels to be editable or locked.

Batch Print
Group files to print together.

Label Settings
Set default horizontal and vertical printing adjustments when using specific supplies with specific printers.

Print Partner
Quickly create labels by filling in a template and printing.

Manage Files
Manage saved files from one screen, with options to preview, categorize and delete file.

Network Printers
Connect to your printers via IP address or DNS address.

Arc flash labels

Safety labels

Facility signs

Equipment labels

Pipe markers

Lean / 5S labels and more

BWS-SFIDS-NA-CD	CD

Additional safety and facility identification software

For more specialized identification projects, you can add on these suites and apps:

Lockout Writer App

This intuitive tool allows you to create, store and print simple lockout procedures, associated tags and energy source labels quickly and easily.

Catalog #	Description
BWRK-LOW-DWN	Email activation code
BWRK-LOW-CD	CD

GHS Chemical Identification App

We've streamlined the label creation process so you can easily enter the data once from your SDS sheets, then create and print GHS label on demand. You can also auto-populate your GHS label using the built-in chemical database.

BWRK-GHS-DWN	Email activation code

Basic Label Design Suite

Use this free software option to get started designing your labels. You get basic formatting capabilities, graphics and simple barcode libraries. Included apps:

- Custom Designer LITE
- Excel Import
- Sequence
- Batch Print
- Label Settings
- Manage Files
- Network Printers

* BBP®37 Printer required to cut out circular-shaped gauge labels.

Brady Workstation: Product and Wire Identification Suite

When you need to create product labels, wire and cable markers and panel labels, this suite is your go-to solution. It allows you to create basic text labels or complex labels with graphics and custom formatting, as well as serialize and import data.

Included apps:

Custom Designer
Complete, customized label creation and editing.

Text Labels
Simple designing for text-only wire and cable labels.

Asset Tags
Create the asset tags or asset location labels you need.

Patch Panel
Quickly identify patch panel ports and associated cables.

Terminal Block
Identify terminal blocks and create associated wire markers.

Excel Import
Easily import Excel data right onto your labels.

Advanced Import
Import data from sources beyond Excel onto your labels.

Sequence
Labels based on numeric and alphanumeric sequences.

Advanced Sequence
Create dependent and complex sequences for label creation.

Flip Flop
Automatically swap text items horizontally or vertically.

Template Editor
Set elements on labels to be editable or locked.

Batch Print
Group files to print together.

Label Settings
Set default horizontal and vertical printing adjustments when using specific supplies and printers.

Print Partner
Quickly create labels by filling in a template and printing.

Manage Files
Manage saved files from one screen, with options to preview, categorize and delete.

Network Printers
Connect to your printers via IP address or DNS address.

Component labels

Wire ID labels

PermaSleeve® wire markers

Rating plate labels

Terminal block labels

And more

Software for your product and wire identification workflow

The following suites are designed to improve and automate your printing and labeling process:

Print Partner Suite

This suite includes everything you need to fill-in your templates and print, including importing data from a variety of supported data sources or automatically generating sequential data for your labels.

- Excel Import
- Advanced Sequence
- Advanced Import
- Print Partner
- Sequence
- Network Printers

Catalog #	Description
BWS-PPS-EM	Email activation code
BWS-PPS-CD	CD
BWS-PPS-EM-VOL	Email with volume license activation code
BWS-PPS-CD-VOL	Volume license CD

Scan and Print Suite

This suite can solve your workflow needs by consuming data from a barcode scanner, keyboard or custom script to populate your label templates as part of a labeling workflow.

- Custom Designer
- Label Settings
- Text Labels
- Manage Files
- Template Editor
- Network Printers
- Scan and Print

Catalog #	Description
BWS-SPS-EM	Email activation code
BWS-SPS-CD	CD

Automation Suite

Get the power to fully automate your label printing with this suite. Easily set up templates and import data to make label creation an automated, error-free process.

- Custom Designer
- Label Settings
- Data Automation
- Manage Files
- Template Editor
- Network Printers

BWS-DAS-EM	Email activation code
BWS-DAS-CD	CD

Manage your facility and assets

Keeping your facility running smoothly can be a time consuming and exhaustive task. Add software to the mix to make sure you know what you have, where you have it and how to keep it compliant.

LINK360® Software

Manage the full lifecycle of visual procedures for lockout tagout, confined space entry and maintenance. This cloud-based software centralizes your data, allowing multiple users and multiple sites access to procedures at any time. Mobile apps allow you to access, modify and verify procedures on the go using a range of mobile devices. Dashboards and reports summarize your program at a glance and keep you informed of audits coming due.

With LINK360 software, you can:

- Cloud-based software allows for program scalability and access from mobile and tablet devices (iOS and Android)
- User-defined permission for viewing, editing and approving helps ensure the correct people are doing the correct activities
- Pre-defined templates and standardized procedures allow for multi-site standardization
- Workflow and responsibility assignments for sites, areas and equipment improves employee accountability around machine safety and productivity
- Audit alerts, notifications and detailed reporting help companies keep information up to date

NetDoc® Network Cable Management Software

Make your job easier and more efficient with NetDoc Cable Management Software. As cable networks grow and become more complex, proper documentation is key to knowing what you have, where it is and what it's connected to. With NetDoc software, you can document and identify every aspect of your network, including cables, patch panels, racks, assets and much more.
